OFFICE OF PETITIONS REQUESTED BY PRACTICE SYSTEMS

ACTION: *File Prelim. Amen*
ON PETITION *2-28-03*
BASE: *3-28-03*
DUE: *3-28-03*
DEADLINE: *3-28-03*
INITIAL: *AM*

This is a decision on the petition filed December 4, 2002 (certificate of mailing date November 25, 2002), requesting, in effect, withdrawal of a Notice of Omitted Item(s) in a Nonprovisional Application (Notice), mailed September 26, 2002. The petition will be treated under 37 CFR 1.53(e).

The application was filed on August 22, 2000. However, on September 26, 2002, the Office of Initial Patent Examination Division mailed a Notice stating that the application had been accorded a filing date of August 22, 2000, and advising applicants that pages 37, 38 and 39 of the specification appeared to have been omitted.

In response, the present petition was filed. Petitioners argue that pages 37, 38 and 39 of the specification should be included with the papers filed on August 22, 2000, because they were originally filed in prior application No. 0232,948, the entire disclosure of which was incorporated by reference at the time of filing.

The petition is **DISMISSED**.

The mailing of a "Notice of Omitted Items" permits the applicants to either: (1) promptly establish prior receipt in the PTO of the items at issue (generally by way of a date-stamped postcard receipt (MPEP 503)), or (2) promptly submit the omitted items in a nonprovisional application and accept the date of such submission as the application filing date. An applicant asserting that the missing items were in fact deposited in the PTO with the application papers must file a petition (and the appropriate petition fee) with evidence of such deposit. An applicant desiring to submit the omitted items in a nonprovisional application and accept the date of such submission as the application filing date must file any omitted items with an oath or declaration in compliance with 37 CFR 1.63 and 1.64 referring to such items and a petition under 37 CFR 1.182 (with the petition fee under 37 CFR 1.17(h)) requesting the later filing date within two months of the date of the "Notice of Omitted Items" (37 CFR 1.181(f)).

In this case, petitioners assert that the missing pages were actually deposited in the PTO on August 22, 2000 with the other application papers. However, they offer no proof to bolster their position.

Instead, applicants seek to add the pages to the present application on the basis that the pages are not new matter. However, no petition is necessary for that purpose. Additional pages of

specification may be entered by the primary examiner without a petition so long as the pages contain no new matter. See MPEP § 608.02(a).

MPEP 201.06(c) states that:

... an applicant may incorporate by reference the prior application by including, in the application-as-filed, a statement that such specifically enumerated prior application or applications are "hereby incorporated herein by reference." The statement may appear in the specification or in the application transmittal letter. The inclusion of this incorporation by reference of the prior application(s) will permit an applicant to amend the continuing application to include any subject matter in such prior application(s), without the need for a petition. (emphasis supplied)

If applicants desire that pages 37, 38 and 39 be added to the application, the appropriate procedure is by way of amendment requesting the entry of the pages. Any such amendment should be filed prior to the first action on the merits and will be considered by the primary examiner.

Accordingly, the petition is inappropriate and is subject to dismissal.

The petition fee will not be refunded, since the petition was not necessitated by any error on the part of the USPTO.

The application is being returned to the Office of Initial Patent Examination for further processing with a filing date of **August 22, 2000**. Pages 37, 38 and 39 will not be processed at this time.

Thereafter, the application will be forwarded to Technology Center 1600 for examination in due course.

Telephone inquiries specific to this matter should be directed to the undersigned at (703) 308-6712.

Preliminary Class

800

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
